Increase in circulating NT-proBNP in hypertension: An effect of left ventricular mass or pump dysfunction?
Haroon Abbasi, Elena N. Libhaber, Gavin R. Norton, Angela J. Woodiwiss, Karen Sliwa and Mohammed R. Essop

Is diastolic dysfunction in hypertension closely related to left ventricular hypertrophy in patients of African ancestry?
Haroon Abbasi, Elena N. Libhaber, Gavin R. Norton, Angela J. Woodiwiss, Karen Sliwa and Mohammed R. Essop

Pump dysfunction in hypertensive hypertrophy: Relative role of myocardial dysfunction versus adverse chamber remodelling in patients of African ancestry
Haroon Abbasi, Elena N. Libhaber, Gavin R. Norton, Angela J. Woodiwiss, Karen Sliwa and Mohammed R. Essop

Left atrial appendage closure with Amplatzer Cardiac Plug in atrial fibrillation: Initial South African experience
Mark Abelson

Two-year clinical outcomes after Sirolimus-eluting stent implantation for the treatment of coronary artery disease in a sample of South African patients
Jamila Khatoon Adam, Wafaa Rmaih, Ashika Harrypaul and Robin Dyer

Red or white wine: Which 1 should you drink to protect your heart?
Zulfah Albertyn, Kim Lamont, Lionel Opie, Sara Vitalini, Claudio Gardana, Marcello Iriti and Sandrine Lecour

Baseline characteristics and demographic differences of patients implanted with an Implantable Cardioverter Defibrillator in PANORAMA-Gulf observational study
F. Al-Kandari, R. Sweidan and M. Al Fayyadh

Cardiac hypertrophy modified: The modulating effect of a TPM1 gene variant on hypertrophy in a hypertrophic cardiomyopathy cohort
Liezl Bloem, Lize van der Merwe, Miriam Reevera, Craig John Kinnear, Marshall Herandien, Althea Goosen, Paul Brink and Johanna C. Moolman-Smook

Left ventricular diverticulum presenting as a pulsating umbilical mass
D.G. Buys, S.C. Brown and M. Long

Association of renin gene haplotype with hypertrophy in hypertrophic cardiomyopathy
Nadia Carstens, Lize van der Merwe, Miriam Reevera, Marshall Herandien, Althea Goosen, Paul A. Brink and Johanna C. Moolman-Smook
A case of idiopathic right ventricular tachycardia arising from the body of the right ventricle
Ashley Chin and Jeff Healey

Intracardiac thrombi in children with dilated cardiomyopathy
Antoinette Cilliers, Paul Adams and Gcina Dumani

Metabolic and clinical changes in patients with acute coronary syndrome undergoing on-pump and off-pump coronary artery bypass surgery
Altia Crous, Lizelle Botes, Francis Edwin Smit and Christiaan Johannes Jordaan

Myocardial infarction: injection of a biomaterial after 1 week is superior to immediate treatment
Neil H. Davies, Karen Kadner, Stephan Dobner, Thomas Franz, Mazin S. Sirry, Deon Bezuidenhout and Peter Zilla

Sphingosine-1-Phosphate (S-1-P) and glucose: A new therapeutic approach to acute heart failure (AHF)
Gaurang Deshpande, Sandrine Lecour and Lionel H. Opie

Transcatheter based aortic valve implantation at 5 years. What happened to our initial patients?
Mirko Doss, Andreas Zierer and Anton Moritz

Morbidity and mortality associated with anomalous origin of pulmonary artery from aorta; review of case seen at Chris Hani Baragwanath Academic Hospital
G. Dumani, P.A. Adams and A.M. Cilliers

A prospective study based on a cohort from the PANORAMA study evaluating CRT non-responders, hyper-responders and super-responders
Iftikhar Osman Ebrahim, Adele van der Walt and Riaan Meyer

Evaluation of QT interval in β thalassemia major and intermedia patients compared with control group
Behzad Farahani, Mohammad Amin Abbasi and Nazila Ghoreishi

The use of echocardiography in predicting left ventricle thrombus in patients with idiopathic dilated cardiomyopathy at Chris Hani Baragwanath Academic Hospital
Claudia Marisa Goncalves Ferreira Dos Santos, F.E.E. Peters, J.K. Adam, Elena N. Libhaber and Mohammed R. Essop

Desmoplakin gene mutations: A common link between arrhythmogenic right ventricular cardiomyopathy and dilated cardiomyopathy
Maryam Fish, Gasnat Shaboodien, Neil Hendricks, Peter J. Schwartz and Bongani M. Mayosi

A retrospective review of rheumatic mitral valve repair in a threshold country
Agneta Geldenhuys, Jithan J. Koshy, Paul A. Human, Juliana F. Mtwale, Johan G. Brink and Peter Zilla

LV diastolic function and filling pressure assessment using the time intervals changes on the mitral inflow and mitral annular velocities
Fei Qiong Huang
Cardioprotective effects of DPP4 inhibition in obese, insulin resistant rats
Barbara Huisamen, Amanda Genis, Erna Marais and Amanda Lochner

Changes in RAAS (renin angiotensin aldosterone system) biomarkers in stable chronic heart failure (HF) patients following short-term angiotensin receptor nepirlysin inhibitor (ARNI) treatment
P. Jordaan, D. Albrecht, A. Feng, P. Chandra, Z. Kobalava, O. Averkov, L. Alexandriya, I. Meray and V. Moiseev

Study of markers of inflammation as predictors and prognosticators of Acute Coronary Syndrome (ACS) in patients with acute chest pain
Prahld Karki, N.K. Pandey, P. Acharya and N.K. Shrestha

Telomere dynamics in premature coronary artery disease
Sajidah Khan, Anil Chuturgoon, Devapregasan Moodley and Alisa Phulukdaree

Evaluation of the AMPK alpha 1 gene (PRKAA1) as a possible modifier of cardiac hypertrophy in hypertrophic cardiomyopathy
Craig John Kinnear, Kashefa Corelse-Tofa, Nadia Carstens, Paul A. Brink and Johanna C. Moolman-Smook

Percutaneous pericardioscopy in tuberculous pericarditis: improving the diagnostic yield
Charles G. Kyriakakis, Helmut Weich and Anton F. Doubell

Ischaemic post conditioning confers protection via TNFalpha: Identifying the cellular origin of TNFalpha
Lydia Lacerda, Muazzam Jacobs, Lionel H. Opie and Sandrine Lecour

What triggers ischaemic or pharmacological preconditioning? Evidence for a role for ERKp44/p42 and PKB/Akt
Amanda Lochner, Dirk Loubser and Ruduwaan Salie

Initial experience with the Biosense Webster Thermocool SF catheter in 3D mapping-guided robotically assisted RF ablation of atrial fibrillation
Faizel Lorgat, Patricia Mc Carthy, Evan Pudney and Helena van Deventer

Pericardial Constriction: Haemodynamics in a nutshell
Wayne Lubbe, Anton F. Doubell and Philip Herbst

Angiographic prevalence of epicardial coronary artery disease in black hypertensive patients with systolic left ventricular dysfunction
Nirvarthi Maharaj, Chris Zambakidies, Elena N. Libhaber, Ferande Peters and Mohammed R. Essop

Left ventricular twist mechanics in normal black subjects
Nirvarthi Maharaj, F. Peters, Elena N. Libhaber, F. Mamdoo, S. Govender and Mohammed R. Essop

Patterns of left ventricular remodelling and ejection performance in black South African hypertensive patients with heart failure
Nirvarthi Maharaj, Ferande Peters, Elena N. Libhaber and Mohammed R. Essop
Tetralogy of Fallot and major arterial thrombosis – an unusual presentation of a common complication
Samina Mahmud Yakoob and Lungile Pepeta

Left ventricular function impairment in young adults with mitral valve prolapse
Eduard Malev, Eduard Zemtsovsky, Svetlana Reeva and Eugeny Timofeev

The Transoesophageal Echocardiography Registry of Chris Hani Baragwanath Academic Hospital (TORCH)
Farouk Mamdoo, Anupa Patel, Ferande Peters and Mohammed R. Essop

Coronary artery disease in pregnancy
Rossy Mamotabo Matshela

Retrospective study in patients presenting with coronary artery disease complicated by conduction defects requiring pacing; to define the benefits of RV pacing and its long-term prognostic implications
Rossy Mamotabo Matshela

Beta Blocker tolerability in a dedicated heart failure clinic
Keir McCutcheon, Nqoba Tsabedze, Pravin Manga, Darryl Smith and Eric Klug

Electrocardiographic findings in patients with isolated left ventricular non-compaction
Ruchika Meel, Ferande Peters and Mohammed R. Essop

Total anomalous pulmonary venous connection - case report of an unusual drainage pattern
Firoza Motara, Tania Pillay, Willy Hendson and Deliwe Ngwezi

The identification of a novel TNNI3 gene mutation in South African patients with hypertrophic cardiomyopathy
Jacoba Martina Mouton, Adriana S. Pellizzon, Althea Goosen, Paul Andries Brink, Craig John Kinnear and Johanna C. Moolman-Smook

Pulmonary arterial hypertension in patients with idiopathic dilated cardiomyopathy
Krinesh Naidoo, Ferade Peters, Anthony Charles Becker, Elena N. Libhaber and Mohammed R. Essop

Relationship between body mass index and arterial stiffness in HIV positive participants and HIV negative participants
Nangamso Ndunam, K.O. Awotedu and A.V. Namugowa

Review of South African data for obese and non-obese patients
George Nel, Eric Klug, Lizelle van Zyl, Dian Hobson and Phillip Venter

WellScreen: Review of real world data in South Africa
George Nel, Eric Klug, Lizelle van Zyl, Dian Hobson and Phillip Venter
Utility of cardiac MRI (CMR) at a large referral hospital in South Africa – the Chris Hani Baragwanath Academic Hospital experience
Mashudu Richard Nethononda, Blandina Nkutha, Nokuthula Mlaba, Neo Ndlovu and Mohammed R. Essop

Management of coronary cameral fistulae in a paediatric population
Andiswa Nzimela, Ebrahim G.M. Hoosen, Noel J. Buckels and Darshan Reddy

Chronic rheumatic heart disease in Abeokuta, Nigeria: Data from the Abeokuta Heart Disease Registry
Okechukwu Samuel Ogah, Elisha I. Ogbodo, Chibuike E. Nwafor, Ayodele O. Falase, Simon Stewart and Karen Sliwa

Markers of left and right ventricular remodelling in a Nigerian hypertensive cohort
Dike Bevis Ojji, Lydia Lacerda, Sandrine Lecour, Matthew Adeyemi Billyrose and Karen Sliwa

Spectrum of hypertension and hypertension-related diseases in Abuja, Nigeria
Dike Bevis Ojji, Samuel O. Ajayi, Manmark H. Mamven, Jacob Alfa and Karen Sliwa

Pacemaker implantation in South Africa: Implant practices and differences in indications, modes and demographics from the Panorama Registry
Andrzej Okreglicki

Differentiating between transanastomotic and transmural endothelialisation: An isolation-loop-graft model in the Wistar rat
Tim Pennel, Peter Zilla and Deon Bezuidenhout

Ductal closure using Amplatzer Duct Occluder Type II, early experience in Port Elizabeth Hospital Complex, South Africa
Lungile Pepeta and Samina Mahmud Yakoob

Chronic diseases of lifestyle risk profiling in an urban African community: An essential role for healthy living intervention strategies
S. Pretorius, S. Stewart, M. Carrington and Karen Sliwa

Anomalous left coronary artery to pulmonary artery (ALCAPA) patients in Red Cross War Memorial Children’s Hospital
Beyra Rossouw, L. Zuhlke and J. Lawrenson

Does the treatment of HIV infection have significant impact on body composition, lipid profile, adiponectin level and resting energy expenditure?
Zono Sinethemba, Kofo Awotedu and Benjamin Longo Mbenza

Anthracycline-induced-cardiotoxicity: Role of proteolytic pathways
Balindiwé Sishi, Ben Loos and Anna-Mart Engelbrecht
Retrospective audit of percutaneous balloon mitral valvuloplasty: Experience over the last 14 years at Tygerberg Hospital
Zane Stevens and Anton F. Doubell

Micro vascular endothelial cell responses to inflammatory stimulation
Hans Strijdom, Corli Westcott, Mashudu Mudau, Sam van Rensburg and Amanda Genis

Familial aggregation of dilated cardiomyopathy in patients with peripartum cardiomyopathy
Kemi Tibazarwa, Karen Sliwa, Ambroise Wonkam, John Stevens, Andrew Boulle and Bongani Mayosi

Identification of novel titin-interacting sarcomeric proteins and their possible roles as modifiers of hypertrophy in hypertrophic cardiomyopathy
Carol Todd, Johanna C. Moolman-Smook and Craig John Kinnear

Screening for cardiac disease using computer-assisted auscultation
Liesl Zühlke, B. M. Mayosi and L. M. Myer

The unmet needs of children with rheumatic heart disease: First insights from REMEDY
Liesl Zühlke, Mark Engel, Ganesan Karthikayan, Koon Teo, Alexia Joachim, Rezeen Daniels, Salim Yusuf and Bongani Mayosi

When God does not want me to die
Graham A. Cassel

Rheumatic heart disease in pregnancy
Blanche Cupido, Karen Sliwa, Bongani Mayosi and P.J. Commerford

The recognition and surgical management of chronic pulmonary thromboembolic disease
R.W. Girdwood

An update of pharmacogenetics
J.W. Jukema and J.J. Verschuren

Update on women and cardiovascular disease
Naomi Rapeport

Anti-coagulation in pregnancy
Vera Regitz-Zagrosek
Gender in Pharmacotherapy
Vera Regitz-Zagrosek

Female sex and oestrogen receptor-beta attenuate cardiac remodelling and apoptosis in pressure overload
Vera Regitz-Zagrosek

Update on lipid management in South Africa
Colin Schamroth

Genetic testing for sudden death: Who, Why, and When?
Peter J. Schwartz

Aortic valve and the advances in the role of imaging (ECHO & CMR)
Joseph Selvanayagam

Cardiac function – how does CMR measure up to ECHO?
Joseph Selvanayagam

CMR assessment of myocardial viability – the new kid on the block
