University of the Western Cape

Dear Mr Mthimunye

Paper entitled: **Predictors of academic performance, success and retention amongst Bachelor of Nursing students: A systematic review**

I have read and edited the above document from the standpoint of grammar, syntax, idiom and punctuation according to the norms of English observed in South Africa, and the style and format generally used by academic and scientific publications.

I have worked as a sub-editor for many years on a number of professional South African academic and health sciences journals published by the Health & Medical Publishing Group (HMPG), which is the publishing arm of the South African Medical Association, and African Online Scientific Information Systems (AOSIS) Publishing.

Yours sincerely
